- If you select Upload Contribution File from the Electronic Contribution page, you can upload contribution form data directly into the system from a data file in .CSV or .TXT format. These files can normally be extracted from your company's payroll system. Using this option can be helpful when there are a large number of employees for whom fringe contributions are being reported.
 1. Select a Work Start Date and Work End Date. If you are a monthly contractor, please use the first day and the last day of the month. If you are a weekly contractor, please use the payroll start and end dates.
 2. Select the appropriate CBA based on the work you are reporting for. This will pull the related fringe rates.
 3. Click the Browse button to find the .CSV or .TXT file you want to use.

Upload a Contribution File

Whether you export from your payroll system or you use Excel to create spreadsheets with employee information, you need to save your file as a .CSV or .TXT file. Simply select “File,” “Save As,” and choose .CSV or .TXT from the “Save as type” drop down list.

Below is the file format that must be used in order to upload contributions. The columns must be in this exact order or an error will occur and you will be unable to upload. A header line should not be used in your file (i.e. employee contribution information should begin in row 1). If a header line is included, it will cause errors when uploading.
